> A VERY serious accident occurred on Bunday to a young man, Mr A. Gardner, prentice engineer, Cosmopolitan Dock, who along with two companions made an excursion on that day to Stoneoutter's Island in a hakka boat. When off the Island. Gardner dived into the water at a place. where the depth is not more than three feet. His head struck with great force against the rocky bottom, and he received such serious injuries on the head and back that he lost consciousness. His companions perceiving what had happened helped him out of the water and got him on board the boat. They were, however, unable to render him much aid in the serious condilaunch with a party, including Major Dempster and Dr Hartigan, happened to be not very far from the spot, and attracted by the cries that were raised, the party promined the injured man and found that the back of his head and spine were seriously burt. He had him transferred on board stances to alleviate the suffering of the young man. The launch proceeded at once to Hongkong, and Gardner was taken to the Civil Hospital, where he now lies in a cri-

It may perhaps be noticed by the few resi dents who over look at the Governmen Gazette that the List of Tenements and their Valuations under the Rating Ordinance are now open to inspection. This valuation takes effect from the 1st of July next, and as the valuation of the current year was the same as that for 1885-86, the changes now made will doubtless possess considerable in terest for those immediately concerned. valuation two years ago by Mr C. O Malsch, who was valuator on that occasion has again been met with. Mr Shelton Reoper, the present viluator, has brought his Home experience to bear in his work here; but the old difficulty of embiguity in the Municipal Rating Ordinance has again cropped up. The rating value of Victoria, including Kennedy Town, is now estimated at \$2,605,272; as against \$2,307,129, the sum of last valuation. This total, however, includes \$11,610 for Kennedy Town, which appeared among the villages in the assessment for 1885-6 so that the increase now shown, over the previous years' total, is about \$287,000. 8th instant, and may be expected here It is needless to say that much of this increase has been obtained by a search ing investigation into the returns made by native houseowners, A case heard not long ago in the Police Court disclosed state of things which has now been greatly remedicd. At the same time, sensible increases have also been made in the valuetions of property held by Kuropeans, which, in some cases, may be open to question. In regard to houses or business premises where no rent passes, it is not easy to arrive at valuation which is recognised as fair and reasonable by all parties concerned. cording to the Ordinance, the lyaluer must make his valuation by estimating the gross annual rentat which such tenement may reasonably be expected to let for the ensuing year. Here comes the difficulty, and it Chart. Merc. The results of this competition are highly interesting, but it would be impossible to state them in full detail without wounding many susceptibilities. We will begin with the pleasantest part of the task-namely, the peopling of our competitors Paradiso. We give the first thirteen names in order according to the number of votes recorded for each :-

The late General Corton. 2. W. E. Gladstone.
